

INVESTMENT HIGHLIGHTS

EXPERIENCED MANAGEMENT & TEAM

With more than \$1B raised, experience across 20+ jurisdictions and 10+ commodities, our team brings a proven track record of delivering significant value to shareholders.

100% OWNED, DRILL READY ASSETS

Two high-potential copper and gold properties (Fauro and Kuma) in the Solomon Islands - Oceania Project.

PROVEN GEOLOGICAL TREND

Strategically positioned along the same mineral belt as major deposits, including Newmont's Lihir Mine.

MINING-FRIENDLY JURISDICTION

Underexplored region with strong government support and a skilled local workforce.

2026 CATALYSTS

On track to begin the inaugural drill program at the Kuma property in March 2026.

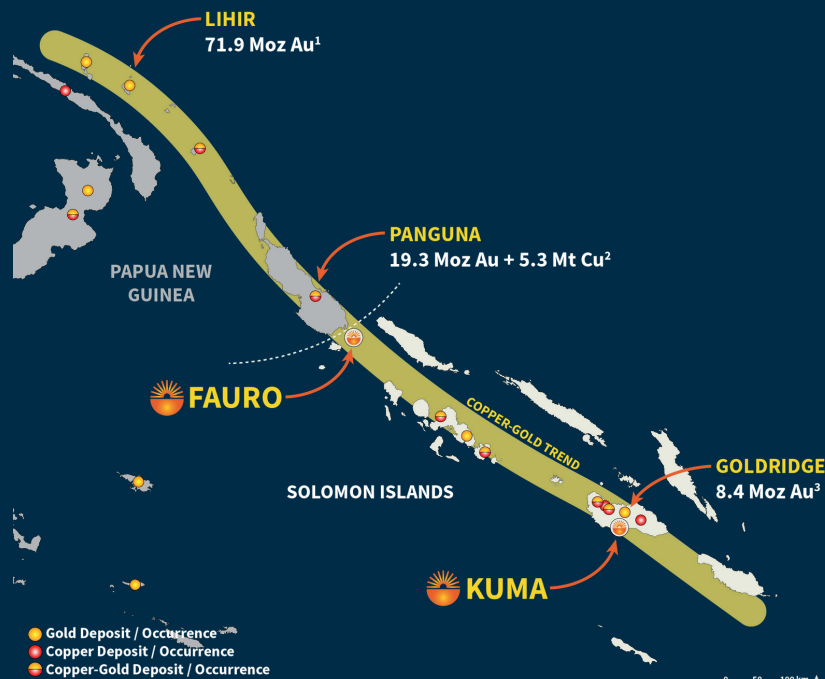

KUMA

Drilling set to begin in March 2026

- 100% owned, 43 km² property
- Drill-ready porphyry target, potential for large-scale system
- **Past results include up to 11.7% Cu and 13.5 g/t Au**

FAURO

- 100% owned, over 147 km² property
- High-potential epithermal gold target, with indications of a large-scale porphyry system at depth
- Seven identified prospects: 3 drill-ready targets, and 4 new exploration targets
- **Previous results include 11m at 4.03 g/t Au and a trench sample of 8m at 27.95 g/t Au**
